Roorkee, Uttarakhand, India

PROFESSIONAL SUMMARY

Full-stack MERN developer with experience building scalable web applications, REST APIs, and AI-powered solutions using LangChain, OpenAI API, n8n, and cloud technologies. Certified in Postman API Fundamentals and Generative AI. Passionate about clean code and user-focused solutions in Agile environments.

EDUCATION

Quantum University

Roorkee, Uttarakhand

Bachelor of Technology in Computer Science and Engineering – CGPA: 8.93

2023 – 2027

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, SQL, C, Python

Backend Development: Node.js, Express.js, REST APIs, WebSockets, Authentication, Authorization, JWT

Frontend Development: React.js, Tailwind CSS, HTML5, CSS3

Database Management : MongoDB, MySQL, SQL, AWS (S3, EC2, IAM), Redis (basic)

DevOps Tools : Git, GitHub, Postman, CI/CD Pipeline, Docker (basic), API Documentation

AI Automation : LangChain, n8n, API, RAG Systems

WORK EXPERIENCE

Swarajya Digital, : Software Developer Intern

June 2025 – September 2025

- Developed and contributed to real-world web applications as a Software Developer Intern, working across frontend and backend to build scalable, user-focused web applications.
- Implemented and maintained 10+ responsive React.js UI components using Tailwind CSS, converting Figma designs into pixel-perfect functional interfaces, reducing design-to-code turnaround time by **30%**.
- Developed and integrated RESTful APIs with Node.js and Express.js for seamless client-server data handling.

Google Developer Group (GDG) Quantum University, : Core Team Member

Aug 2024 – Aug 2025

- Planned and executed 15+ technical events and workshops, driving attendance of 600+ students per event and promoting peer learning within the developer community.
- Mentored and guided students during technical events and workshops to enhance their practical skills.

PROJECTS

Smart Pharmacy Management System | MERN Stack | [live demo](#)

React.js | Tailwind CSS | Node.js | Express.js | MongoDB | JWT | LangChain (AI Chatbot)

- Implemented role-based authentication for Pharmacist and Users, ensuring secure and controlled system access.
- Built inventory management with expiry monitoring, and automated alerts to minimize unnoticed stock expiries.
- Integrated an AI-powered chatbot using LangChain to assist users with medicine queries, order status, and pharmacy details, enhancing customer support and engagement

AI-Powered Secure Outpass Approval System | MERN + n8n | [live demo](#)

React.js | Tailwind CSS | Node.js | Express.js | MongoDB | LangChain | n8n | JWT | WhatsApp API

- Developed Passify with 3-tier approval workflow (Student → Parent → Admin), automating 200+ requests via n8n webhooks with real-time updates.
- Allowing admin-registered parents to approve/reject requests with image/video proof for authenticity validation.

GitHub Codebase AI Assistant | Retrieval-Augmented Generation (RAG)

- Built a RAG-based GitHub Codebase AI Assistant where users paste a repository URL to fetch, chunk, and embed entire codebases using LangChain and OpenAI API for intelligent code querying
- Implemented ChromaDB vector search enabling code querying, modification requests, and logic detection.

ACHIEVEMENTS AND CERTIFICATIONS

- Solved 700+ DSA problems across multiple coding platforms and maintained a 9+ SGPA across three semesters.
- Certified in Postman API Fundamentals Student Expert and Gen AI Study Jams 15+ skill badges.(2025)
- Completed the IBM SkillsBuild 1M1B | AI + Sustainability Virtual Internship, gaining exposure to AI applications.
